

**NOTIFICATION OF ARAB CONTRACTORS AND CONSULTANTS OF
PROJECTS AND TECHNICAL ASSISTANCE OPERATIONS
FINANCED BY THE ARAB BANK FOR ECONOMIC
DEVELOPMENT IN AFRICA (BADEA)**

The Board of Directors of the Arab Bank for Economic Development in Africa (BADEA), in its session held during the period 16-18 June, 2010 has approved loans and grants for some African countries.

The total amount of the approved financing is US\$ 59.95 million, of which US \$ 57.00 million are earmarked as loans, for participation in financing of eight development projects and US\$ 2.95 million are allocated for financing eight technical assistance operations.

The following are the approved operations:

The Projects:-

	Beneficiary Country	Loan Amounted (Million of US\$)	Project Name
1-	Cape Verde	10.00	Rural Development for Eradication of Poverty
2-	Republic of Zambia	10.00	"Kalabo-Sikongo-Angol Bordes Road"
3-	Republic of Uganda	10.00	Rural Electrification in Eight Areas
4-	Republic of Cameroon	7.00	Potable Water Supply for Some Centres
5-	Congo Democratic Republic	8.00	Health Centre (Phase 1)
6-	Republic of Malawi	7.00	Phalombe Hospital
7-	Republic of Ghana	10.00	Trauma and Acute Pain Centre (Phase 1)
8-	Regional	5.00	Line of Credit for the Investment and Development Bank of the West African States Economic Community

Technical Assistance Operations:-

	Beneficiary Country	Loan Amounted (US\$)	Objectives of the Technical Assistance
1-	Republic of Sao Tome & Principe	350,000	Preparation of techno-economic feasibility study for the Supply of Potable Water Project to Sao Tome Town Project
2-	The Togolese Republic	300,000	Preparation of techno-economic feasibility study for the Reclamation of Agricultural Lands in " Oti" Plain
3-	Republic of Benin	250,000	Provision an Arab Expert's Services for the Support of the Directorate of Public Works
4-	Republic of Rwanda	250,000	Provision of an Arab Expert's Services for the Support of Kigali Municipality
5-	Republic of Sierra Leone	250,000	Financing of an Arab Expert's Services for the Support of the Ministry of Finance and Economic Development
6-	Republic of Niger	200,00	Support for the Ministry of Rural Development
7-	Federal Democratic Republic of Ethiopia	240,000	Financing of a Training Programme for the Ethiopian Highway Authority Cadres
8-	Regional	350,000	Financing of a Training Programme in the Field of Regional Economic coordination and Integration
9-	Regional	330,000	Financing of a Training Programme in the Field Integrated Management for Rice Production
10	Regional	200,000	Financing of "The Associated Blindness Control " Programme (Second Contribution)
11	Regional	230,000	Financing of a High Standard Colloquium for the Arab-Afro Cooperation in the Field of Investment and Trade

PROJECTS:

Beneficiary Country	Republic of Cape Vrde
Project's Name	Rural Development for Eradication of Poverty
Estimated Project Cost	US\$ 2.50 million
BADEA's Financing	US\$ 2.00 million
Other Sources of Financing	The Government - US\$ 0,50 million.
<ul style="list-style-type: none"> Project Description and Components 	<p>The project is located in the two islands of "Santiago and "Fogo" and consists of the following components:</p> <ul style="list-style-type: none"> • Basic Services Projects which include small projects in the fields of potable water (construction and rehabilitation of tanks, procurement and installation of household connections, water points electricity supplies and sewerage equipment at site. • Income Generation Projects which include small projects in the field of plant and animal production , processing of agricultural and animal products, artincinal fishing traditional industries and professions (procurement of equipment and different means of production) and commercial activities • Support of thr Project Implementation Unit by provision of office equipment and a means of transport . • Consultancy services for the preparation of technical and financial studies for the small projects • Annual auditing of the project's accounts.
Project objectives	The project aims at the contribution to reduction of poverty, improvement of living condition for the poorest group in the rural and semi urban areas through the increase of incomes by improving capacity of production in the income generation activities hence contributing to sustainable development for the poorest groups, in addition to the improvement of their living condition through facilitating their supply with basic services of potable water electricity and sanitation
Procurement of Goods and Services	<ul style="list-style-type: none"> - <u>Execution of basic Service and income generation project"</u> through a short list of local contracting companies and local suppliers - <u>Procurement of office equipment and the means of transport"</u> through local tenders restricted to local dealers and suppliers - Annual accounts auditing: through local competition restricted to specialized auditing offices
Project's Implementation	The physical implementation of the project is expected
Executing Agency	<p>Programme National de lute contre la pouverte CP: 236 Tel: 238 261 2893 E-mail: razevedo80@hotmail.com Paraia Cape -Verde</p>

Beneficiary Country	The Republic of Zambia
Project's Name	"Kalabo- Sikongo - Angola Borders" Road
Estimated Project Cost	US\$54.00 million
BADEA's Financing	US\$ 10.00 million
Other Sources of Financing	Kuwait Fund(US\$14.00 million),Saudi Fund(US\$12.00 million), OFID(US\$10.00 million) and Government(US\$8 million)
Project Description and Components	<p>The project lies in Kalabo province in the western region of the country . the road starts from "Kalabo" town which lies at a distance of 600km to the west of the capital "Lusaka" westwards to :Sikongo" village which is at a distance of 56km from "Lusaka" then to Angola Borders at a distance of 28.1km . the project consists of the following components:</p> <p><u>1. Civil Works and ancillaries:</u> for the construction of an asphalt road about 84.1km long as follows:</p> <ul style="list-style-type: none"> • "Kalabo- Sikongo" with a length of 56km a width of 6.5m and with tow shoulders each is 2.5m wide • "Sikongo- Angola Borders With a length of 28.1 km, a width of 6.2m and with two shoulders each is 2,0 m wide <p><u>2. Consultancy Services:</u> for the preparation of detailed designs and tender documents ,assisting the Executing Agency in launching and analysis of bids, award of contract and supervision of the execution of the works.</p>
Project objectives	The Project is part of the transport corridor that links the capital "Lusaka" and the Angolan borders to the west and towards one of the main ports in the Republic of Angola. The project aims at facilitation of transport of passengers and goods in the western region of the country and with the Republic of Angola. The project also aims at enhancing trade relations between the Republic of Zambia and Angola and enhancing the socio- economic development in the regions which crosses
Procurement of Goods and Services	- <u>Civil works and ancillaries:</u> on the basis of competitive bidding restricted to African, Arab or mix Arab-African firms.
Project's Implementation	The physical implementation of the project is expected to start in the middle of 2011 and be completed in the middle of 2014 .
Executing Agency	Road Development Agency P.O.Box 50003 Tel: +260 211253088/253801/253002 Fax: +260211253404 Lusaka - Zambia

Beneficiary Country	Republic of Uganda
Project's Name	Rural Electrification in Eight Regions
Estimated Project Cost	US\$ 24.648 million
BADEA's Financing	US\$10.00 million
Other Sources of Financing	Saudi Fund(US\$11.00 million)
Project Description and Components	<p>The project comprises the supply of electric power to about 112 villages distributed in 8 regions and it consists of the following components:</p> <ul style="list-style-type: none"> - Civil and electrical works for procurement and installation of transmission lines (33KV) with a total length of about 658 km , supply and installation of 159 sub transformers(33/0.38 KV) ,supply and installation of distribution lines(380 Volt) with a total length of about 274 km and supply and installation of cables and metres for 5400consumers - Consultancy Services for preparation of detailed engineering designs and tender documents and the supervision of the execution of the project.
Project objectives	<p>The project is within" The National Programme for Rural Electrification in Uganda' And it is also within the framework of the special Initiative for the Supply of Energy to the Poor. The project aims at the improvement of the standard of living, reduction of poverty ,reduction of immigration rates from rural areas to cities through the supply of household electric power to the population of a group of villages and to the commercial, industrial and agricultural activities in the project area hence contributing to the socio- economic development. The project will lead to the achievement of positive environmental impact by the reduction of cutting of trees as a main source of energy.</p>
Procurement of Goods and Services	<ul style="list-style-type: none"> -Civil and electrical engineering for the supply and installation of transmission lines ,distribution sub transformers cables and metres : Through International Competitive Bidding - Consultancy Services: on the basis of a short list of arab, African or Arab/ African firms
Project's Implementation	<p>The physical implementation of the project is expected to start in October 2011 and takes 24 months to be completed in October, 2013.</p>
Executing Agency	<p>Ministry of Energy and Rural Development Rural Electrification Agency Tel; 256312264095/264103 Fax: 256414346013 E- Mail: vena@rea.or.ug Kampala -Uganda</p>

Beneficiary Country	The Republic of Cameroon
Project's Name	Potable Water Supply for Some Centres
Estimated Project Cost	US\$ 14.50 million
BADEA's Financing	US\$ 7.00 million
Other Sources of Financing	OFID(US\$6.00 million) and the Government(US\$1.50 million)
Project Description and Components	<p>The Project comprises 7 centres: "Akom2", "Amfangan", "Aolamzi" ,"Mifingi" in the South Region. "Kiti"and "Misamina" in the East Region And "Bot Makak" in the Central Region . The number of population in these centres is estimated as 30,000. The project consists of the following components:</p> <ol style="list-style-type: none"> 1. <u>Civil Engineering ,Hydro mechanical and electrical Works</u> <ul style="list-style-type: none"> - Drilling and equipping 14 wells, rehabilitation of 2 existing wells, connection of 14 pumping stations with the electricity grid, supply and installation of electric generators for the pumping stations and construction of gravel roads to connect the wells with roads networks of the concerned centres. - Construction of 7 water tanks - Supply and laying of transmission and distribution lines with a total length 75.30 km and diameters that vary 36 to 200mm and about 2092 household connections and a public water distribution point - Construction of an administrative office in each centre for the department responsible for management and operation of the water supply facility and a house for the head of the department 2. Supply of operation and maintenance equipments which include the equipment materials and tools required for operation and maintenance of the project 3. <u>Support of the Project Coordination Unit and the two Project Implementation Units; with: office equipment, office furniture, 3 X 4WD vehicles,7 motor cycles and the operation expenses</u> 4. <u>Consultancy Services:</u> for the preparation of detailed designs and tender documents assistance of the Executing Agency In launching analysis of bids award of contracts and supervision of the execution of the project 5. <u>Auditing of the and beneficiaries annual Accounts of the Project:</u> 6. <u>Support of the Capacities of the Local Groups and Beneficiaries</u>
Project objectives	The Project aims at the supply of potable water for 7 centres in the central ,southern, and eastern regions, contribution to the reduction of water borne diseases hence leading to the improvement of the standard of health of the population ,reduction of hardships facing the population ,especially women, in fetching water. The project will also participate in enhancing the economic activities which aids in increasing the income of the population and stability , in addition to the contribution to the achievement of the Millennium Development Goals.
Procurement of Goods and Services	<u>- Construction of civil engineering ,hydro mechanical and electrivcal works and ancillaries: on the basis of bidding</u>

	<p>restricted to African, Arab or mix Arab-African firms.</p> <p>- <u>Supply of operation and maintenance equipments, office equipment and furniture and means of transport: On the basis of local biddings restricted to authorized local suppliers and dealers.</u></p> <p>- <u>Consultancy Services:</u> Through a Short list of African, Arab or mixed Arab and African consulting firms.</p>
Project's Implementation	The physical implementation of the project is expected to start at the beginning of 2012 and to be completed in the middle of 2013
Executing Agency	Directions de l'Hydraulique et d'Hydrologi E- Mail : Banjidaniel@yahoo.fr

Beneficiary Country	Congo Democratic Republic
Project's Name	Health Centres(Phase1)
Estimated Project Cost	US\$ 15.00 million
BADEA's Financing	US\$ 8.00 million
Other Sources of Financing	OFID (US\$6.00 million) and the Government (US\$1.00 million)
Project Description and Components	<p>The Project lies in "Kinshasa" province and the neighbouring province of "Bndono" .The project area is considered the most densely populated area in the country with a population of more than 12 million persons. The project is composed of the following components;</p> <p><u>1. Civil Works and ancillaries:</u></p> <ul style="list-style-type: none"> - Construction of 26 health units, each unit consists of a building with an area of about 180m2 and consists of 2 rooms for treatment, maternity ward and other facilities. - Construction of 5 health centres each centre with an area of about 830 m2 consisting of units of medicine, gynecology a hall for nurses' training, a house for the doctor responsible for the centre and administrative building . - Construction of 10 administrative centres for the health areas. Each centre with an area of about 450 m2 and composed of meeting hall, drug store, store for medical equipment and 11 offices. <p><u>2. Equipment and Furniture : consisting ofequipment for potable water supply, electric generators , medical equipment and medical and non-medical furniture</u></p> <p><u>3. Supply of the first consignment of medicines for the units and health centres to to start working immediately after the completion of construction</u></p> <p><u>4- Support of the Project Implementation Unit by provision of means of transport and office equipment</u></p> <p><u>5- Project Management Expenses which include the operational expenses of the central coordinating office (BCECO) which will be responsible for the project management</u></p> <p><u>6- Means of transport consisting of 67 motor cycles (two motor cycles for each health unit and one motor cycle for health centre and administrative centre</u></p> <p><u>7- Consultancy Services for the preparation of detailed</u></p>

	<u>engineering designs and tender documents for civil works, equipment and furniture, assisting the Executing Agency in launching , analysis of tenders, award of contracts and supervision of project implementation</u>
Project objectives	The project is within the Government's programme(2007-2014)which aims at the development of the health sector and improvement the quality of the health services. The project aims at the improvement of the health conditions for about 50000 persons through the upgrading the quality of the health services and possibility of access to these services. The project also aims at the support of the Ministry of Public Health in implementing its new strategies of public health ,contribution to covering the shortfall in the infrastructure and human resources in the health sectorand reduction of poverty.
Procurement of Goods and Services	<ul style="list-style-type: none"> - <u>Civil works and ancillaries:</u> on the basis of restricted bidding to African, Arab or mix Arab-African firms. -<u>Supply, of the first drugs consignment :</u> on the basis of open bidding. - <u>Procurement of 67 motor cycles:</u> on the basis of local bidding restricted to local suppliers - <u>Means of transportation and office equipment for the Management Unit of the project in the Ministry of Health :</u> on the basis of local bidding for local suppliers - <u>Consultancy Services:</u> Through Short list of African, Arab or mix of Arab and African consulting firms
Project's Implementation	The physical implementation of the project is expected to start in September 2011 and be completed in March, 2014.
